Issue Triage

#	Title	Category	Confidence	Priority	Summary
#361	5 hook bugs on master — routing, streaming, extensibility (fixed in PR #156)	enhancement	99%	high	Implement Rust-based hook engine for improved extensibility, streaming, and command routing
#103	feat: Add support for dotnet CLI commands	feature	98%	medium	Add support for filtering dotnet CLI commands
#142	feat: integrate session summary hook for end-of-session analytics	enhancement	98%	medium	Implement automatic RTK savings visibility at the end of each Claude Code session
#146	Feature Request: Add sudo prefix support for command rewriting	feature	98%	medium	Add support for sudo prefixed commands in RTK auto-rewrite hook
#154	refactor: migrate rtk-rewrite.sh hook from shell to Rust subcommand	enhancement	98%	medium	Migrate rtk-rewrite.sh hook from shell to Rust subcommand
#163	bug: rtk git -C <path> ... is rejected (works only via separator form)	bug	98%	high	Fix RTK CLI to accept `-C` argument for `rtk git` command

#165	Using rtk in Zed editor with Claude Code ACP	question	98%	low	User seeking advice on using rtk with Zed editor
#169	Add support/installation for Codex	feature	98%	medium	Add support for Codex CLI
#181	Feature request: kubectl filter support	feature	98%	medium	Implement kubectl filter support to reduce token usage
#189	Release pipeline should skip binary builds for non-code changes	enhancement	98%	medium	Improve release pipeline efficiency by skipping binary builds for non-code changes
#190	How to upgrade ?	question	98%	low	User needs help upgrading the package
#191	Feature: Add dotnet / MSBuild command filters	feature	98%	medium	Add filter support for .NET / MSBuild toolchain
#195	Support for Oxlint and Oxfmt in RTK	feature	98%	medium	Add support for Oxlint and Oxfmt in RTK
#208	benchmark.sh: add missing commands for pre-release pipeline	enhancement	98%	medium	Expand benchmark.sh to cover all filter commands
#212	bug: RTK can't resolve .CMD/.BAT wrappers on Windows (PATHEXT not honored)	bug	98%	high	RTK fails to resolve .CMD/.BAT wrappers on Windows
#213	feat: add support for cursor	feature	98%	medium	Add support for cursor
#218	Add timeout to hook	feature	98%	medium	Add timeout to hook to prevent indefinite stalling
#219	feat: config for curl filter bypass	feature	98%	medium	Implement config option to bypass curl filter for JSON responses

#220	`vitest run --coverage` is not supported	bug	98%	high	Fix coverage data loss when running `vitest` with coverage option
#222	bug: rtk proxy does not stream long-running command output progressively	bug	98%	high	rtk proxy should stream long-running command output progressively
#229	grep: unexpecter argument	bug	98%	high	Fix unexpected argument error in grep command
#236	Hook: find/grep rewrite breaks on native flags — workaround with smart translation	bug	98%	high	Hook translation breaks on native flags for find and grep
#243	Support exclude_commands config for auto-rewrite hook	enhancement	98%	medium	Add 'exclude_commands' config option for auto-rewrite hook
#257	rtk rg command fails — ripgrep not supported or not forwarded correctly (codex)	bug	98%	high	rtk rg command fails to proxy to ripgrep
#260	Security: PreToolUse hook bypasses Claude Code deny rules via permissionDecision: allow	bug	98%	critical	Security: PreToolUse hook bypasses Claude Code deny rules via permissionDecision: allow
#266	Hook rewrites git commit --amend but rtk git commit doesn't support it	bug	98%	high	rtk git commit hook incorrectly rewrites --amend and fails
#271	Feature request: Add Jujutsu (jj) support	feature	98%	medium	Add support for Jujutsu (jj) VCS
#273	How to use on roo/cline/kilo?	question	98%	low	User needs help understanding how to use roo/cline/kilo
#294	Hook rewrite: add coverage for uv run, pnpm exec, Python path variants, and more	enhancement	98%	medium	Add coverage for additional command patterns in rtk-rewrite.sh

#304	Feature request : add command for grepai	feature	98%	medium	Add 'rtk grepai' command for filtering grepai semantic code search output
#307	Add support for MS Copilot	feature	98%	medium	Add support for MS Copilot
#315	discover: cat > (file writes) incorrectly counted as cat (file reads), inflating savings estimates	bug	98%	high	Incorrectly counting file writes as file reads in RTK discover command, leading to inflated savings estimates
#316	Support Biome for lint command	feature	98%	medium	Add support for Biome linting
#320	rtk gain not tracking commands when sandbox blocks writes to ~/.local/share/rtk/	bug	98%	high	RTK gain stats not tracking commands due to sandbox write restriction
#322	Telemetry data	question	98%	medium	Clarify telemetry data disclosure
#330	Add hooks support for Windows	feature	98%	medium	Add hooks support for Windows
#331	feat(init): interactive config wizard for rtk init	enhancement	98%	medium	Implement interactive config wizard for rtk init
#354	gh PR comments/reviews and git diff output still truncated, causing repeated fetch attempts by AI agents	bug	98%	high	Fix truncated output from `gh` CLI and `git diff` causing repeated fetch attempts by AI agents
#372	fix: extra blank lines in gradle output	bug	98%	medium	Fix extra blank lines in gradle output
#383	Windows: add winget package support	enhancement	98%	medium	Add winget package support for RTK on Windows
#384	Windows: rtk init -- uninstall does not work	bug	98%	high	Windows: rtk init -- uninstall does not work
#387	Basic Claude Issues / Grep, Read, Glob not being rewritten	docs	98%	medium	Update documentation to clarify which

	as they're not Bash commands				commands are rewritten by RTK
#388	Claude fails to use `rtk proxy` because of quotes	bug	98%	high	Fix `rtk proxy` command to handle quoted arguments correctly
#396	Cost more after using rtk	question	98%	medium	User seeks clarification on increased cost when using rtk
#401	Pi support	feature	98%	medium	Add integration for pi-coding-agent
#403	Why CLAUDE.md?	question	98%	low	Request for explanation about CLAUDE.md content
#407	tail -N fails when rewritten to rtk read	bug	98%	high	rtk should handle `tail -N` arguments or fall back to native `tail`
#416	Issue accepting arguments for `gh run`	bug	98%	high	Fix argument parsing for `gh run` command
#441	[Feature]: diffsitter instead of diff	feature	98%	medium	Request for new functionality: use diffsitter instead of diff for supported languages
#442	[Feature]: use HEDL instead of JSON, XML, YAML, CSV	feature	98%	medium	Request for new functionality: automatic conversion of JSON, XML, YAML, CSV to HEDL
#444	Add `pnpm nx` command patterns for Nx monorepos	enhancement	98%	medium	Add support for `pnpm nx` commands to RTK's rewrite/compression patterns
#445	Add coverage for git subcommands: restore, reset, rm, ls-files, rev-parse	enhancement	98%	medium	Add coverage for common git subcommands to reduce output and improve efficiency
#446	Add `gh search` subcommand support	enhancement	98%	medium	Add support for compressing output of `gh search` subcommands

#448	[Feature] add ty type checker	feature	98%	medium	Add support for the `ty` type checker from the uv for Python code
#449	[Feature]: add basedpyright	feature	98%	medium	Add support for basedpyright python type checker
#450	Failed to get latest version	bug	98%	high	Fix curl error when getting latest version
#457	Would you accept a nix config?	question	98%	low	Asking about acceptance of a nix config
#461	`rtk git log --oneline` silently truncates the log to 10 entries.	bug	98%	high	Fix `rtk git log --oneline` to display full log instead of truncating to 10 entries
#464	bug: `rtk read` corrupts `package.json` when JSON strings contain `/*` or `*/`	bug	98%	high	Fix `rtk read` to preserve valid JSON structure when processing `package.json` files
#474	Branch naming guidelines in CONTRIBUTING.md are illegal	docs	98%	low	Update CONTRIBUTING.md to reflect valid branch naming conventions
#476	CI: validate-docs.sh breaks on every release (version mismatch)	bug	98%	high	CI check fails due to version mismatch in docs after automated release
#481	feat: rtk discover --share / --issue — Community filter prioritization	enhancement	98%	medium	Add community filter prioritization via RTK discover --share / --issue
#482	fix: rtk ls summary line inflates pipe count	bug	98%	high	Fix `rtk ls` summary line inflation when piped
#483	feat: add jq filter (TOML)	enhancement	98%	high	Add a new TOML filter for jq to reduce output size and improve performance

#484	feat: add xcodebuild test filter (TOML)	enhancement	98%	medium	Add TOML filter for xcodebuild test output to reduce verbosity
#485	fix: discover doesn't match /usr/bin/grep as rtk grep equivalent	bug	98%	high	rtk discover misclassifies /usr/bin/grep as unhandled command
#486	feat: rtk context — Show Claude Code context token budget	feature	98%	medium	Implement 'rtk context' command to display Claude Code context token budget
#487	feat: rtk session — Show RTK adoption across Claude Code sessions	feature	98%	medium	Implement 'rtk session' command to show RTK adoption across Claude Code sessions
#488	Feature Request: Configurable context reduction profiles (heavy, normal, soft, light)	feature	98%	medium	Implement configurable context reduction profiles for better debugging experience
#496	cargo clippy -- -D warnings fails: args after -- treated as filenames	bug	98%	high	rtk's `cargo clippy` rewrite fails to preserve `--` separator, causing args to be treated as filenames instead of lint flags
#500	bug: test-all.sh aborts on Graphite section when gt is not installed	bug	98%	high	Fix `skip` function call in `scripts/test-all.sh` to prevent script abortion
#502	Support hook-based mode on Windows (rtk init --global)	bug	98%	high	rtk init --global on Windows falls back to --claude-md mode incorrectly
#147	Feature Request: Add Support for Java/Kotlin, Spring Boot, and Maven Environment Workflows	feature	95%	medium	Add support for Java/Kotlin, Spring Boot, and Maven environment workflows
#205	feat: add support for awscli	feature	95%	medium	Add native support for AWS CLI commands in RTK

#333	Feature Request rtk ssh subcommand — remote command output filtering	feature	95%	medium	Implement `rtk ssh` subcommand for remote command output filtering
#348	feat: Automated Issue & PR triage system (templates, labeling, classification)	enhancement	95%	medium	Implement automated issue and PR triage system with templates, labeling, and classification
#428	Add skopeo support	feature	95%	medium	Add skopeo support for filtering and summarizing JSON outputs
#87	feat: add support or template support for additional compilers	feature	90%	medium	Add support for additional compilers with a generic template
#115	Optional feature for safely remapping commands? (Eg rm -> trash)	feature	90%	medium	Request for optional feature to safely remap dangerous commands
#117	add support/installation for OpenCode	feature	90%	medium	Add support/installation for OpenCode
#122	Support for pnpm and glab cli	feature	90%	medium	Request for support of pnpm and glab cli
#139	plugin system so people can integrate their own	feature	90%	medium	Request for a plugin system to integrate third-party tools
#140	Support running pytest with uv run python/python -m	feature	90%	medium	Add support for running pytest with 'uv run python -m'
#149	Other (catchall) doesn't allow user made scripts	feature	90%	medium	Allow user-made scripts to be run without optimizations
#173	Claude.md french preference	feature	90%	medium	Request to default Claude.md to English for contribution friendliness
#182	Feature request: helm filter support (show, template)	feature	90%	medium	Add RTK filtering support for helm show, template, and chart
#183	Feature request: gcloud CLI filter	feature	90%	medium	Implement gcloud CLI filter support for

	support				compact and summarized output
#184	Feature request: pre-commit / linter output filter support	feature	90%	medium	Implement linter output filter support for pre-commit and checkov
#187	bug: rtk proxy bun run lint reorders output line vs raw command	bug	90%	low	rtk proxy output order differs from raw command
#197	Handle supported commands through the bunx / bun x / pnpx / pnpm dlx / npx	feature	90%	medium	Support RTK commands when called through package managers like bunx, npx, etc.
#237	Integrate rtk with framework	feature	90%	medium	Request for integrating rtk with framework
#259	`pnpm --filter` command results in rtk usage output	bug	90%	high	rtk should pass unknown arguments to target command
#275	Feature request: add rtk rewrite for `docker exec`	feature	90%	medium	Add RTK rewrite/filter for `docker exec` output to reduce token usage
#276	Feature request: add rtk rewrite for `docker compose`	feature	90%	medium	Add RTK rewrite/filter for `docker compose` output
#278	Feature request: add rtk rewrite for `psql`	feature	90%	medium	Add RTK rewrite/filter for `psql` output to reduce token usage
#279	Feature request: add rtk rewrite for `docker inspect`	feature	90%	medium	Add RTK rewrite/filter for `docker inspect` output
#283	Feature request: add rtk rewrite for `stat`	feature	90%	medium	Add RTK rewrite/filter for `stat` command
#285	Feature request: add rtk rewrite for `python3`	feature	90%	medium	Add RTK rewrite/filter for `python3` output
#376	Feature Request: Add support for `xcodebuild` and subcommands	feature	90%	medium	Add support for xcodebuild and subcommands to optimize token usage

#427	The rtk proxy is summarizing the diff. Let me get the raw content differently.	feature	90%	medium	Request for native git diff support in Claude Code
#439	Trouble running xargs as second bash command.	bug	90%	medium	Investigate and fix grep failing with xargs command
#467	git log filter strips commit bodies that agents need for context	feature	90%	medium	Preserve commit bodies in `rtk git log` for better context
#470	npm run is broken	bug	90%	high	Fix `rtk npm run` command to support 'run' keyword

Merge Queue

#	Title	Score	CI	Mergeable
#505	fix: respect user-specified git log limits (#461)	0	unknown	unknown
#503	fix(ls): suppress summary line when stdout is piped	0	unknown	unknown
#501	fix: test-all.sh aborts when gt is not installed	0	unknown	unknown
#499	chore: merge develop into master	0	unknown	unknown
#495	Add opencode init lifecycle support	0	unknown	unknown
#494	feat(config): configurable auto_approve and claude dir	0	unknown	unknown
#491	feat: Claude Code tooling — 2 agents, 7 commands, 2 rules, 4 skills	0	unknown	unknown
#463	fix(ls): force LC_ALL=C for predictable parsing	1	unknown	unknown
#456	Added German Translation	1	unknown	unknown
#455	feat(init): add --opencode flag for OpenCode plugin install	1	unknown	unknown
#453	feat(bun): add bun pm	1	unknown	unknown
#452	feat: add Windows hook support for rtk init --global	1	unknown	unknown
#451	feat(config): support CLAUDE_CONFIG_DIR environment variable	1	unknown	unknown
#447	Add documentation for RTK CLI proxy	2	unknown	unknown

#443	feat(npm): structured NpmCommands sub-enum with smart script routing	2	unknown	unknown
#436	feat(chezmoi): add chezmoi dotfile manager support (80-90% token savings)	2	unknown	unknown
#431	feat(init): add --project and --local scope flags	2	unknown	unknown
#429	Add rtk python3 command with module routing and traceback filtering	2	unknown	unknown
#426	feat(kubectl): support global context and identity flags	2	unknown	unknown
#424	[feat] Add shim to make rtk work with Codex	2	unknown	unknown
#423	chore: sort help	2	unknown	unknown
#422	chore: cleanup dead code	2	unknown	unknown
#421	docs: reposition RTK as agent-agnostic	3	unknown	unknown
#420	security: comprehensive OWASP security review and fixes	3	unknown	unknown
#419	fix: preserve gh run view passthrough args	3	unknown	unknown
#417	Add OpenCode provider support for discover	3	unknown	unknown
#413	docs: clarify Bash-only auto-rewrite scope	3	unknown	unknown
#412	fix: handle tail rewrites with read tail-lines	3	unknown	unknown
#411	fix: split single-string proxy invocations	3	unknown	unknown
#408	feat: add arabic readme	3	unknown	unknown
#406	feat: add codex review support	3	unknown	unknown
#402	feat: add rtk cdk diff/synth/deploy filters	4	unknown	unknown
#399	feat(docs): add Indonesian README translation	4	unknown	unknown
#398	fix(windows): use script_cmd() for all Node.js tool spawning	4	unknown	unknown
#395	feat: `rtk mysql` — MySQL client output compression	4	unknown	unknown
#394	feat(xcodebuild): add support	4	unknown	unknown
#392	fix(init-uninstall): uninstall removes --claude-md artifacts on Windows	4	unknown	unknown
#390	fix: normalize venv/path-prefixed commands in rewrite hook	5	unknown	unknown

#385	fix(windows): improve native build support and Git Bash integration	5	unknown	unknown
#381	feat(gradle): add Gradle/Gradlew support with compact output (80-90% token reduction)	5	unknown	unknown
#379	feat: add Bundle and Rails CLI support (TOML DSL + Rust hybrid)	5	unknown	unknown
#377	feat(init): add Codex CLI support via AGENTS.md + RTK.md workflow	5	unknown	unknown
#368	feat: add Maven (mvn) command support with 7 subcommands	5	unknown	unknown
#367	Add support for CLAUDE_CONFIG_DIR	5	unknown	unknown
#364	feat: add worktree slash commands for isolated Rust development	5	unknown	unknown
#358	feat: OpenClaw plugin for transparent exec rewriting	5	unknown	unknown
#357	feat: add Codex CLI integration via skill	5	unknown	unknown
#356	feat: add Warp (Oz) integration via skill	5	unknown	unknown
#355	feat(discover): handle more npm/npx/pnpm/pnpx patterns	5	unknown	unknown
#341	Add az CLI provider with compact Azure DevOps/Monitor/WebApp output	6	unknown	unknown
#339	feat: add OpenCode integration (plugin + setup)	6	unknown	unknown
#317	feat: add rtk yarn command with smart filter routing	6	unknown	unknown
#314	feat(glab): add GitLab CLI (glab) command support	7	unknown	unknown
#312	feat(gradlew): Gradle support for Android/Kotlin developers	7	unknown	unknown
#308	feat: add bazel support	8	unknown	unknown
#306	Replace lazy_static with std::sync::LazyLock	8	unknown	unknown
#305	feat: add grepai command with search and trace filters	8	unknown	unknown
#303	Add OpenCode plugin for RTK auto-rewrite	9	unknown	unknown
#301	chore: Update dependencies	9	unknown	unknown
#300	feat: add OpenCode plugin support	9	unknown	unknown
#295	feat: add PowerShell installer for Windows	10	unknown	unknown

#293	feat(kubectl): add global flags --context, --kubeconfig, -n, -l, --as	10	unknown	unknown
#292	feat: add Ruby CLI support (rspec, rubocop)	10	unknown	unknown
#272	feat: add support for `yarn test` (Vitest)	10	unknown	unknown
#270	feat(pnpm): Add filter argument support	10	unknown	unknown
#269	fix windows PATHEXT resolution for .cmd/.bat wrappers	10	unknown	unknown
#261	feat: add cache compounding savings to rtk gain	10	unknown	unknown
#256	fix: include command name in err/test tracking labels	10	unknown	unknown
#255	feat: multi-provider session scanning for discover and learn	10	unknown	unknown
#254	feat(init): add Cursor support (`rtk init --cursor`)	10	unknown	unknown
#253	feat: add rtk sqlfluff lint with JSON filter (~75% token reduction)	10	unknown	unknown
#235	fix(gh): show fallback note for filtered body; fix api truncation message	10	unknown	unknown
#232	feat(pnpm): add `rtk pnpm [run] <script>` with smart filter routing	10	unknown	unknown
#226	feat: add yarn workspace command with smart filter routing	10	unknown	unknown
#225	Feature/opencode integration	10	unknown	unknown
#217	fix: gh pr/issue/run view drops flags when no identifier given	10	unknown	unknown
#198	feat(rspec): add RSpec test runner with compact output (Rails/Ruby)	10	unknown	unknown
#176	Add first-class uv command dispatch and hook rewrite	10	unknown	unknown
#174	feat: add Gemini CLI support via rtk init --gemini	10	unknown	unknown
#172	Add structured rtk dotnet support (build/test/restore) with binlog/TRX parsing, robust argument forwarding, and locale-stable fallback behavior	10	unknown	unknown
#160	feat: add multi agent	10	unknown	unknown
#158	Gemini CLI Hook Support (PR #131 Part 3)	10	unknown	unknown
#157	Data Safety Rules + Extensible Rule System (PR #131 Part 2)	10	unknown	unknown

#156	Hook Engine + Chained Command Rewriting (PR #131 Part 1)	10	unknown	unknown
#153	feat: add rtk scaffold command for contributor boilerplate	10	unknown	unknown
#150	feat(hook): native cross-platform (Windows & more) hook-rewrite command	10	unknown	unknown
#138	feat(wrangler): add Cloudflare Wrangler CLI support	10	unknown	unknown
